SUMMARY

A highly motivated Informatics Engineering student with a strong focus on Machine Learning and Web Development. Proven track record in developing predictive models and web-based applications. Experienced in collaborative environments, demonstrating adaptability and strong organizational skills. Capable of handling data analysis, visualization, and database management to drive technical solutions.

ORGANIZATIONAL EXPERIENCE

Secretary of Science & Technology | Informatics Student Association **Sept 2023 - July 2024**

- Managed technical administration and operational coordination for 5 major programs.
- Systematized document archiving and accountability reports (LPJ) to ensure 100% operational transparency.

EDUCATION

Bachelor of Informatics Engineering **Sept 2022 - Feb 2026**

Universitas Dian Nuswantoro

- GPA 3.87/4.00
- Co-authored a SINTA 3 Indexed Journal: "IndoBERTweet-CNN Hybrid Architecture for Slang Hate Speech Classification on Social Media."

CERTIFICATIONS & TRAINING

Badan Nasional Sertifikasi Profesi | Associate Data Scientist **April 2026**

- Certified as an Associate Data Scientist by BNSP, validating industry-recognized competencies in data analysis and machine learning.

NVIDIA Deep Learning Institute | Getting Started with Deep Learning **Apr 2025 - May 2025**

- Built, trained, and optimized deep learning models for complex data classification tasks.

BASS Training Center & Consultant | "AI Literacy for Everyone: Understand, Apply, Create" **Nov 2025**

- Mastered Prompt Engineering and Generative AI techniques to enhance technical workflow efficiency.

WORK & PROJECT EXPERIENCE

E-Library System | Full-Stack Developer **Jan 2023 - Mar 2023**

- Built a digital library management system using PHP Laravel.
- Automated book inventory and loan tracking, enabling real-time data synchronization.

Rice Quality Classification Web App (RiceUp) | Lead Developer **Mar 2025 - July 2025**

- Developed a Neural Network model to classify rice quality with 94% accuracy using a dataset of 4,000+ images.
- Integrated the model into a functional web application for real-time quality assessment.

Web Developer Intern **May 2025 - June 2025**

Dinas Komunikasi, Informatika, Statistik, Persandian (Diskominfo) Kota Semarang

- Designed and developed a web-based internship management application using Python.
- Successfully digitized and streamlined data management for over 100+ interns monthly, improving administrative efficiency.

SKILLS

- **Programming Languages :** Python (TensorFlow, Keras, Pandas), PHP (Laravel), SQL, JavaScript.
- **Technical Expertise :** Machine Learning, Deep Learning, Web Development, Data Visualization, Database Management.
- **Languages :** Indonesian (Native), English (TOEFL Prediction: 487).
- **Soft Skills :** Collaborative Teamwork, Fast-paced Adaptability, Systematic Documentation.
